Good Morning Mr. Garcia,

My name is Hannah Zimri, and I just wanted to let you know how much my son Adam enjoyed your Ham Radio page, <http://kc3arc.org/links/>. He went to a summer camp, and it just finished up this week- one of his favorite parts of camp was learning about Morse code, radio frequencies, and early communication. He was doing some more research about amateur radio groups last night, and mentioned how much he enjoyed your page, and I thought you'd be glad to hear!

I told Adam we should send you an email letting you he thought your page was great- and he thought it'd be great to share another article about the history of communication, and Morse code, <https://communicationmgmt.usc.edu/history-communication-morse-code/>, that I guess they had used while learning about it at camp! I thought it was a really cool article, and was hoping you might be able to include it on your page? I'd love to show him that he could contribute another cool informational resource- I know he'd be thrilled! We are going to look into how he can get involved with a local radio club around us here (Franklin Lakes, NJ), as well!

Thanks again for encouraging Adam's interest in HAM radio! I think its such a neat hobby and I am trying to encourage him as much as possible- I think it'd be a really fun thing for him to get into and meet some amazing people! Hope you enjoyed the article about Morse code he wanted to share, and if you can include it on your page, please let me know so I can show him! Have a wonderful day, and hope to speak again soon!

Best,

Hannah Zimri
