

AUGUST 2026 VP WAVEFORM

This has been an incredible summer for KCARC!

Not only did we have a successful Summer Field Day, but KCARC has been growing in membership and meeting attendance! We are glad to see newly licensed hams as well as long-standing hams join the club and actively participate.

Another awesome observation: Our members are reaching out to ensure our new members are welcomed! I see offers of help in the finest tradition of ham radio Elmering.

Yet, another great observation: Our members and attendees hang around for a long while after the meeting ends just to kibbutz and enjoy the fellowship.

So, some really good things are happening at KCARC and word is out!

Have a great rest of summer and stay safe!
